

Bereket Mengaw

FULL-STACK ENGINEER · AUTOMATION & AI INTEGRATION

✉ bereketmengaw1@gmail.com ✦ Addis Ababa, Ethiopia [in linkedin.com/in/bereket-mengaw-demle](#)

PROFILE

Full-Stack Engineer specializing in automation and AI integration. I build scalable web and mobile applications while implementing intelligent, automated solutions that improve efficiency and elevate the user experience.

EXPERIENCE

React Native Developer & Business Operations Specialist

Sep 2025 – Present

Specialist

Brhan Enterprise Limited · New Zealand (Remote)

Building [Brhan.io](#), a headless e-commerce marketplace connecting African sellers with global buyers.

Full-Stack Developer

Aug 2025 – Feb 2026

UBS · USA (Remote)

Developed [NiceYard.app](#), a SaaS platform for landscapers — managing jobs, crews, and payments, with online client tracking and payment.

Full-Stack Developer — Freelance

Apr 2025 – Aug 2025

Upwork · Remote

- > App builder using Supabase
- > Full-stack development with AWS & Docker implementation
- > Frontend development — React / Next.js UI bug fixes
- > Part-time full-stack support for a SaaS beta launch

Full-Stack & Automation Engineer

Aug 2024 – Apr 2025

Mereb Technologies · Addis Ababa, Ethiopia

Jr. React Developer

Jan 2024 – Jul 2024

Mereb Technologies · Addis Ababa, Ethiopia

On-site React developer at a freelancing agency.

SELECTED PROJECTS

NiceYard.app — SaaS · Landscaping Management

A platform for landscapers to manage jobs, crews, and payments. Implemented core features, integrated payment flows, and optimized job-management processes across web and mobile — improving operational efficiency and client engagement through real-time updates and automated workflows.

Brhan — React Native · E-Commerce

A mobile app connecting African sellers with global buyers, enabling product browsing, ordering, and secure payments. Improved accessibility and customer engagement, helping local businesses reach international markets.
